OPIS PRODUKTU

The 2015 **Caterpillar M318F** wheeled excavator, offered by Lupher, has worked 7,082 motor-hours and weighs 18 tons. The machine is equipped with a triple break arm, a mechanical quick coupler, and hydraulics suitable for operating a shear or hammer. It is powered by a 129.4 kW CAT C7.1 engine that meets Stage IV emission standards. In addition, it has a digging bucket, rectangular blade, 10.00-20 size tires and a rear camera. Operator comfort is ensured by a central lubrication system, radio, air conditioning and working lights.
