- Liebherr D924 A7 110 kW
- hydraulic installation for hammer/shears
- track gauge: 1435 mm
- tire size: 10.00-20
- reverse camera
- side camera
- central greasing system

- radio
- USB
- air conditioning

OPIS PRODUKTU

The 2016 **Liebherr A922 Rail** two-way excavator is a modern machine with a weight of 21 tons and a mileage of 8,375 hours. It is powered by a 110 kW Liebherr D924 A7 engine. It is equipped with a triple-break arm and a Likufix SWA48 hydraulic quick coupler for quick and convenient attachment changes. The machine has hydraulics suitable for operating a shear or hammer. The excavator is ideally suited for track work thanks to its 1435 mm rail track width and 10.00-20 tires. Rear and side cameras, central lubrication system, radio, USB port and air conditioning provide comfort and safety.
